

**Oregon Low Rise Code
(Appendix N)
Special Amendment
Section AN115 Radon Mitigation**

Effective Date: April 1, 2011

Contact: Richard S. Rogers

richard.rogers@state.or.us

New code section AN 115 has been adopted by the State of Oregon.

The over-all purpose of the proposed amendments to the Oregon Low Rise Code is to implement Senate Bill 1025 approved by the 2010 Legislature. The bill required the Residential & Manufactured Structures Board to adopt radon mitigation standards for new apartment buildings covered under the scope of Appendix N. These requirements are applicable in Baker, Clackamas, Hood River, Multnomah, Polk, Washington and Yamhill Counties.

These proposed rules would become effective April 1, 2011 for new R-2 occupancies.

This item has been prepared as an insert page for the 2010 OSSC. Pages are formatted so that when inserted, the amendments will face the page containing the existing code language.

**SECTION AN 115
RADON MITIGATION**

AN115.1 Scope. Low-rise residential structures shall be provided with radon control methods in accordance with Section 1812 of this code. The provisions of this section apply to new low-rise residential buildings constructed in *Baker, Clackamas, Hood River, Multnomah, Polk, Washington and Yamhill Counties* for which initial building permits are issued on or after April 1, 2011.
