Compensable fatalities are claims accepted by insurers arising from a fatal occupational injury or disease that entitle workers or their survivors to compensation.

Data exclude deaths of exempt workers, such as workers who were self-employed, worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees. For more information about employer coverage requirements, contact the Employer Compliance Program at [wcd.employerinfo@state.or.us](mailto:wcd.employerinfo@state.or.us) or call 888-877-5670 (toll-free).

Claims characteristics are classified according to the Occupational Injury and Illness Classification System (OIICS Version 2.01).

Data are based on the date the Department of Consumer and Business Services received notification that the fatal claim was accepted, which may be different than the date of injury or illness or the date of death. Dashes indicate no claims were received.

Injury age is the age of the employee at the time of the fatal injury or the diagnosis of the fatal illness. It may be different than the age at death.

Source data are continually updated to be as accurate as possible, so report results may vary over time.
