

Medical Plan (Air Transportation)

Who are the personnel and what are the resources that may be needed to help implement a safety and health program?

The Safety and Health Program requires employers to identify safety and health personnel and resources that will be used to implement their program. 437-007-0105(2)

The Medical Services and First Aid rules require the following information to be near the worksite communication device(s) when air evacuation is available to the worksite:

- (a) Name and phone number of the air evacuation service.**
- (b) Worksite location by latitude and longitude or township, range and sections as required by the air service. 437-007-0220(7)**
