Footnotes:

Compensable fatalities are claims, accepted by insurers, arising from a fatal occupational injury or disease that entitles workers and/or their survivors to compensation. Data exclude deaths of workers not subject to Oregon Workers' Compensation coverage, such as workers who were self-employed, worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees. For additional information about employer coverage requirements, you may contact the Employer Compliance Program at [wcd.employerinfo@state.or.us](mailto:wcd.employerinfo@state.or.us) or call (888) 877-5670.

Injury age is the age of the employee at the time of the fatal injury or the diagnosis of the fatal illness. It may be different than the age at death.

Tenure is the length of time that an employee had been working for the employer at the time of the fatal injury or the diagnosis of the fatal illness.

Dashes indicate no claims were received.
