Other sources	1	7	2	1	1	12	12.1
<b>Total</b>	<b>20</b>	<b>30</b>	<b>17</b>	<b>18</b>	<b>14</b>	<b>99</b>	<b>100.0</b>

Footnotes:

Compensable fatalities are claims, accepted by insurers, arising from a fatal occupational injury or disease that entitles workers and/or their survivors to compensation. Data exclude deaths of workers not subject to Oregon Workers' Compensation coverage, such as workers who were self-employed, worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees. For additional information about employer coverage requirements, you may contact the Employer Compliance Program at [wcd.employerinfo@state.or.us](mailto:wcd.employerinfo@state.or.us) or call (888) 877-5670.

Program-related fatalities are a subset of compensable fatalities that resulted from incidents the DCBS Occupational Safety and Health Division (Oregon OSHA) determined may have been prevented by complying with safety and health standards and/or implementing a safety and health management program. Please contact Oregon OSHA at (503) 378-3272 for information about Oregon OSHA fatality investigations.

Injury sources are classified according to the Bureau of Labor Statistics' [Occupational Injury and Illness Classification System](#) (OIICS).

Dashes indicate no claims were received.

0.0 percent indicates that the percentage of claims calculates to less than 0.05.
