Pedestrian accident	+	Run over by motor vehicle	60	M	248	02/12	Union	Road maintenance worker	921140

Compensable fatalities are claims accepted by insurers arising from a fatal occupational injury or disease that entitle workers or their survivors to compensation. Data exclude deaths of noncovered workers, such as workers who were self-employed, worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees. For more information about employer coverage requirements, contact the Employer Compliance Program at employerinfo@state.or.us or call 888-877-5670 (toll-free).

Claims characteristics are listed according to the Occupational Injury and Illness Classification System (OIICS 2007 edition).

Data are based on the date the Department of Consumer and Business Services received notification that the fatal claim was accepted, which may be different than the date of injury or illness, or date of death.

Industries are grouped and classified according to the North American Industry Classification System (NAICS), 2002 edition. Employees of client leasing firms are reported in the industry in which they were working at the time of injury.

INV = Investigated. A plus sign (+) in this column indicates that Oregon OSHA investigated the fatality. Oregon OSHA investigates certain fatalities within its jurisdiction to determine if the incident might have been prevented by complying with safety and health standards. Contact Oregon OSHA at 503-378-3272 for more information.

Tenure is the number of months an employee had been working for the employer at the time of the fatal injury or diagnosis of fatal illness. N/A = tenure was not reported.
