TABLE A-4. Fatal occupational injuries by primary and secondary source of injury by major private industry ¹ sector, Oregon, 2003 - continued

Primary source and secondary source	Total fatalities (number)	Goods producing				Service providing							
		Total goods producing	Natural resources and mining ²	Construction	Manufacturing	Total service providing	Trade, transportation, and utilities	Information	Financial activities	Professional and business services	Education and health services	Leisure and hospitality	Other services
Truck.....	11	9	8	--	--	--	--	--	--	--	--	--	--
Semitrailer, tractor trailer, trailer truck.....	9	9	8	--	--	--	--	--	--	--	--	--	--
Other sources.....	10	8	6	--	--	--	--	--	--	--	--	--	--
Steam, vapors, liquids, n.e.c.....	7	6	6	--	--	--	--	--	--	--	--	--	--
Liquids.....	7	6	6	--	--	--	--	--	--	--	--	--	--
Water.....	7	6	6	--	--	--	--	--	--	--	--	--	--

¹ Classified according to the North American Industry Classification System, 2002.

² Includes fatalities at all establishments categorized as Mining (Sector 21) in the North American Industry Classification System, 2002, including establishments not governed by the Mine Safety and Health Administration (MSHA) rules and reporting, such as those in Oil and Gas Extraction.

³ The primary source identifies the object, substance, or exposure that directly produced or inflicted the injury. For transportation incidents, the source identifies the vehicle in which the deceased was an occupant.

⁴ The secondary source of injury, if any, identifies the object, substance, or person that generated the source of injury or that contributed to the event or exposure. For vehicle collisions, the deceased's

vehicle is the primary source and the other object (truck, road, divider, etc.) is the secondary source. For most homicides, the "bullet" is the primary source and the "perpetrator" is the secondary source.

NOTE: Totals for major categories may include subcategories not shown separately. Dashes indicate no data reported or data that do not meet publication criteria. n.e.c. means "not elsewhere classified." Data for 2003 are revised and final.
