Footnotes:

Accepted disabling claims are claims, accepted by insurers, arising from occupational injuries or diseases that entitle workers to compensation for disability or death.

Industry is classified according to the North American Industrial Classification System (NAICS), 2002 edition. Claims from employees of client leasing firms are reported in the industry in which the claimant was working at the time of injury.

This industry only includes claims and employees in the private sector. Establishments owned by state and local governments are categorized according to their respective ownership.

Employment figures are based on the Department of Consumer and Business Services' estimation of Oregon employment covered by workers' compensation.

Claims rates represent the number of accepted disabling claims per 100 workers.

Source data are continually updated to be as accurate as possible, so report results may vary over time.
