Footnotes at end of table

Table 4. Accepted disabling claims involving forklifts and other industrial power carrier vehicles by occupation (SOC), Oregon, 2002-2006, continued

Occupation (SOC)	Acceptance year					Five-year total	
	2002	2003	2004	2005	2006	Total	%
Transportation and material moving	80	96	96	103	107	482	51.2
<i>Supervisors, transport., and material moving</i>	4	1	-	-	2	7	0.7
<i>Motor vehicle operators</i>	11	16	18	16	16	77	8.2
<i>Other transportation workers</i>	-	-	-	-	2	2	0.2
<i>Material moving workers</i>	65	79	78	87	87	396	42.0
Occupation not reported	33	31	12	11	12	99	10.5
Total	172	189	186	202	193	942	100.0

Accepted disabling claims are claims, accepted by insurers, arising from occupational injuries or diseases that entitle workers to compensation for disability or death.

The current table includes accepted disabling claims in which either the primary or secondary source of the injury was either a forklift (source codes 8510-8519) or another powered industrial carrier (source codes 8520-8529).

Source of injury is classified according to the Occupational Injury and Illness Classification System (OIICS).

Occupation is classified according to the Standard Occupational Classification Manual (SOC), 2000 edition.

- Dashes indicate no claims were received.

0.0 percent indicates the percentage of claims calculates to less than 0.5 percent.

Source data are continually updated to be as accurate as possible, so report results may vary over time.
