Out of state	-	-	-	1	-	1	1.0
Total	20	30	17	18	14	99	100.0

Footnotes:

Compensable fatalities are claims, accepted by insurers, arising from a fatal occupational injury or disease that entitles workers and/or their survivors to compensation. Data exclude deaths of workers not subject to Oregon Workers' Compensation coverage, such as workers who were self-employed, worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees. For additional information about employer coverage requirements, you may contact the Employer Compliance Program at wcd.employerinfo@state.or.us or call (888) 877-5670.

Program-related fatalities are a subset of compensable fatalities that resulted from incidents the DCBS Occupational Safety and Health Division (Oregon OSHA) determined may have been prevented by complying with safety and health standards and/or implementing a safety and health management program. Please contact Oregon OSHA at (503) 378-3272 for information about Oregon OSHA fatality investigations.

(continued next page)

In 2004, an Oregon employee was fatally injured in Washington and later died in Oregon. An Oregon OSHA investigation was conducted for this fatality in conjunction with Washington Department of Labor & Industries (WISHA).

Dashes indicate no claims were received.

0.0 percent indicates that the percentage of claims calculates to less than 0.05.
