Footnotes:

Compensable fatalities are claims, accepted by insurers, arising from a fatal occupational injury or disease that entitles workers and/or their survivors to compensation. Data exclude deaths of workers not subject to Oregon Workers' Compensation coverage, such as workers who were self-employed or worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees. For additional information about employer coverage requirements, you may contact the Employer Compliance Program at wcd.employerinfo@state.or.us or call 888-877-5670.

+ Indicates Oregon OSHA investigated the fatality.

Investigated fatalities are a subset of compensable fatalities that resulted from incidents the DCBS Occupational Safety and Health Division (Oregon OSHA) determined may have been prevented by complying with safety and health standards and/or implementing a safety and health management program. Please contact Oregon OSHA at 503-378-3272 for information about Oregon OSHA fatality investigations.

Industries are grouped and classified according to the [North American Industry Classification System](#) (NAICS), 2002 edition.

Industry classification codes are also provided according to the [Standard Industrial Classification Manual](#) (SIC), 1987 edition.

(continued next page)

Employees of client leasing firms are reported by the industry in which they were working at the time of injury.

Injury events are classified according to the Bureau of Labor Statistics' [Occupational Injury and Illness Classification System](#) (OIIICS).

Injury age is the age of the employee at the time of the fatal injury or the diagnosis of the fatal illness, which may be different than the age at death.

Tenure is the length of time, in months, that an employee had been working for the employer at the time of the fatal injury or the diagnosis of the fatal illness.

* Indicates the tenure is unknown.

0 Indicates the tenure less than one month.

Five fatalities occurred outside of Oregon: three in Washington, one in California, and one in Nebraska.

Source data are continually updated to be as accurate as possible, so report results may vary over time.
