Footnotes:

Compensable fatalities are claims, accepted by insurers, arising from a fatal occupational injury or disease that entitles workers and/or their survivors to compensation. Data exclude deaths of workers not subject to Oregon Workers' Compensation coverage, such as workers who were self-employed, worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees. For additional information about employer coverage requirements, you may contact the Employer Compliance Program at wcd.employerinfo@state.or.us or call 888-877-5670.

Occupation is classified according to the Bureau of Labor Statistics' [Standard Occupational Coding Manual](#) (SOC), May 2000 edition.

Dashes indicate no claims were received.

0.0 percent indicates that the percentage of claims calculates to less than 0.05
