Footnotes:

Compensable fatalities are claims, accepted by insurers, arising from a fatal occupational injury or disease that entitles workers and/or their survivors to compensation. Data exclude deaths of workers not subject to Oregon Workers' Compensation coverage, such as workers who were self-employed, worked in Oregon for out-of-state employers, city of Portland police and fire employees, or federal employees. For additional information about employer coverage requirements, you may contact the Employer Compliance Program at [wcd.employerinfo@state.or.us](mailto:wcd.employerinfo@state.or.us) or call 888-877-5670.

Tenure is the length of time that an employee had been working for the employer at the time of the fatal injury or the diagnosis of the fatal illness

Dashes indicate no claims were received.

Source data are continually updated to be as accurate as possible, so report results may vary over time.
